

ACL

Manufacturing Inc.

ACL 5100 Combustion Safety Controller

ACL 5100 Combustion Safety Controller

Provides safe and reliable ignition/ flame sensing for all types of natural draft heating applications

Meets and exceeds CSA B149.3 guidelines

CSA approved for Class 1, Div 2 location (Groups A, B, C, and D)

CSA certified C22.2 No. 199-M89 Combustion Safety Controls and Solid-State Ignitors for Gas and Oil Burning Equipment

No programming required

LED indication of shutdowns, alarms, and pilot/system on

Proof of closure feature

Remote stop/start capabilities

Flame-out response time of 0.8 seconds

Easy installed with any burner

NEMA 4X enclosure - corrosion resistant and weatherproof

Low power consumption

Available for 12/24 VDC and 120/240 VAC power supplies
